

WHAT IS COMMUNITY RESPITE?

Caring for someone can be a valuable and rewarding experience. It can also be stressful and may leave you emotionally or physically exhausted. As a carer, you should try to take regular breaks from your caring role.

Taking a respite break can give you time to do everyday activities, have rest and relaxation or enjoy other leisure activities that might help you deal with

stress. A benefit of this break might mean you can maintain your carer role longer.

MannaCare community day or overnight respite options are available so you and the person you care for can have a break. You choose what service suits your needs.

HOW DOES THE COMMONWEALTH HOME SUPPORT PROGRAMME WORK?
